

The Newsletter of the  
San Diego Stereo Camera Club

# FUSION

June

2004

---

The Stereo Programs for this month are :

## Welcome to Eastbourne

A slide presentation by the ISU (International Stereoscopic Union)  
This stereo slide show was used to introduce the last ISU  
Conference held in England

## PSA View-Master Competition

This Competition was judged just days ago - we will be one of first  
Clubs to see the winners!

We will continue to have an Open Projector after the scheduled program,  
bring some good stereo slides to show our guests.

---

Refreshments for the June meeting : Ken Wright

---

Photo Arts Bldg : We need someone to sit the Building on July 11,  
if you can please let Lillian know, thanks.

---

Next swap meet nite :

At the August Club meeting night, we will have our next swap meet night. Bring  
something photo related preferably stereo, that you would like to sell or swap

## San Diego Stereo Camera Club Minutes for May 26, 2004

The informal meeting started at 7 pm with refreshments provided by Nancy Butler. The business meeting, chaired by our President Lillian Harris started at 7:30 pm. We had 17 members and 1 guest. Lillian thanked Nancy for refreshments and said June's refreshments would be provided by Ken Wright.

We need someone to sit the building on July 11, if you can please see Lillian. Several door prizes were given away : Ken W. won a lenticular from the film "A Day After Tomorrow" and Mary won a publication from the ISU. Thanks to Lawrence Kaufman for the door prizes.

Lawrence K also brought his table top slide viewer and images for our group. Glen Stokes talked about our web site (sdsccl.us) and asked for materials to put on the web site. Glen also mentioned a web site (www.3dphotopro.com) for lenticulars. This is a for profit site but has great info on how to make a lenticular print and what is needed, very good information.

This short Club minutes report brought to you by your editor.

### San Diego Stereo Camera Club Picnic July 4, 2004

The annual SDSCC picnic is set for July 4 at Norm's house - just like last year and the year before that! Anyway - this barbecue will feature "Phil's Barbecue" - a very tasty treat of ribs and chicken and side dishes. You can bring a special dish if you want and this is a BYOB event, with mixers and soda provided by Norm. Now what we DO NEED FROM YOU is an RSVP no later than June 30 so that enough food is ordered. Call Norm at 619 857-5126 and let him know if you will be attending. Thanks in advance.

The party will begin around 1PM with eating beginning around 3 pm. Norm's address is 5172 Brockbank Place in San Diego very close to SDSU which is on College Ave.

### Information about the San Diego Stereo Camera Club

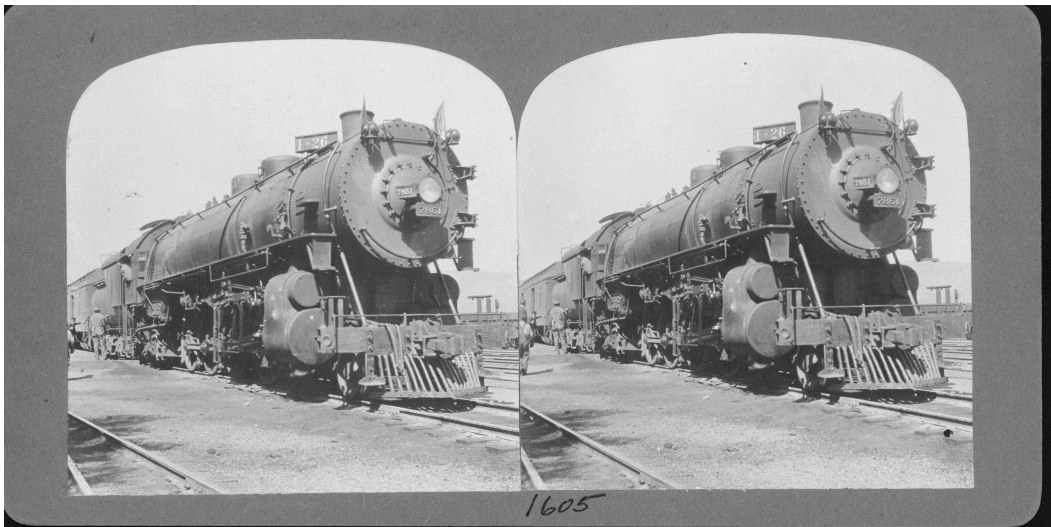

The San Diego Stereo Camera Club meets ten times a year (January through October) on the fourth Wednesday (7 pm) of each month to project stereo slides, view stereo cards and discuss 3-D in general. We also hold three Club competitions each year. Meetings are held in the Photo Arts Bldg. near Park Blvd and Village Place in Balboa Park ( the small bldg at the entrance to the big parking lot with the Carousel / Merry-go-Round at the back of the lot). We share the bldg with many planar camera clubs, a darkroom club and a video / movie club. Our annual banquet is held in November.

This Club is a member of the Southern California Association of Camera Clubs (SCACC) and the Photographic Society of America (PSA). Current "Editor" - Ken Wright (kwright@nassco.com)

"In the hotel at  
Rancho Santa Fe  
California  
July 9, 1924"

A couple of recent stereo cards acquisitions by your editor.

All this card  
has on it is a  
hand written  
number 1605

Sharp's new  
3D LCD  
monitor

LL-151D  
3D LCD Color Monitor  
(Stimulated screen image)

This group of cards have the same color mounts and have the same hand written number system. Most have some hand written info. They date from 1907 - 1926 and are mostly trains with the vast majority in Salt Lake City. One card has a stamp "GEO. C. ELLETT" and the reverse has stamped "Print made by " and then hand written "Shilpers"

## Stereo Ramblings :

Sharp Corporation has released a new 3D-LCD monitor. This LCD is the same as the 3D-LCD laptop that Norm Henkels has bought. This monitor will work on Windows and Apple Mac machines. The cost is around \$1,000. Sharp is going to market these monitors to museums, medical and the educational world. You can read about this new product at <http://sharp-world.com/cororate/news/040610.html>

Takashi Sekitani brought the 3D-LCD item to my attention along with the news that he has created a simple software for making your own slide shows using the 3D-LCD monitor. You can download this software free on Takashi's site, doesn't look like its for the computer novice though : <http://www.stereoeye.jp/software/3dsp.html>

More Mars anaglyphs try : [www.dualmoments.com/marsrovers](http://www.dualmoments.com/marsrovers)

Not much happening in stereo this past month. Photo3D has about half the usual traffic and the discussion is mostly technical. I have searched a lot of places and here are a few that may be of interest to the group.

([www.razor.com](http://www.razor.com)) has a very large and 3D stuffed site. They sell Nu-Views, 3D DVD's, glasses, 3D games, software to convert standard video source to "Realistic 3D"; this software adds 3D special effects to movies and games. A very complete site with info.

([www.urthere3D.com](http://www.urthere3D.com)) Abe Perlstein's site with stereo in parallel, cross view and anaglyphs. He has a nice selection and is in the process of creating a 3D CD that will be sold later this summer.

([www.members.aol.com/eatapotato/stereo.html](http://www.members.aol.com/eatapotato/stereo.html)) This site has lots of rendered stereo animations and some video. Also this person does stereo conversions and there is a great conversion of the Beatles Abbey Road album cover.

([www.berezin.com](http://www.berezin.com)) Steve has a very good and constantly changing supply of new 3D items and supplies. He is now selling the Lanc Shepard stereo remote for twin Canon and Sony digital still and video cameras. This item controls power up, focus, zoom and shutter and has very good synch. The SDSCC would like to thank Steve for his offer to host a site for our Club on his web site.

([www.geocities.com/herba2004/](http://www.geocities.com/herba2004/)) Stereo photos by Herb taken with a digital Olympus D-340R using the Macro setting of flowers.

([www.representatives.com/3D/content.htm](http://www.representatives.com/3D/content.htm)) Need something new for your Realist? New lens shades, flash handles, mounts viewer polish, tape - take a look, lots of new stereo goodies.

---

## PSA News : The New Exhibition Circuit :

41st Exhibition of Stereo Photography - Entry fee : \$8; slides & cards; Closes Aug. 16, 2004;  
John K. Taylor, 23 Hutton Ave., Hartlepool TS26 9PW England, UK  
TDS@beeb.net

Detroit Exhibition of Photography - Entry fee : \$7; Slides; Closes Sept. 13, 2004;  
Ron Genaw, 30552 Glenwood Circle, Warren MI 48088-3337  
rongenaw1@comcast.net

Chicago Lighthouse - Entry fee : \$7; Slides; Closes Sept. 29, 2004; Suzanne Kiredjian  
8300 Gross Point Rd., Morton Grove , IL 60053. Cards to Elizabeth Mitofsky  
3558 W. Loyola Ave., Lincolnwood, IL 60712

The June issue of the PSA Journal has hit the news stands. I have noted this before, but the print quality of the PSA Journal is of the highest caliber. This issue has a review of the software program Color Efex Pro, several reviews of new photo books, and a great article on photographing flowing lava at night. The "Brady Bit" is an article by Ira Current about the centennial of the Civil War (in 1960) and Ansco's contribution to the celebration. The company had several of their employees learn the wet plate photo process (popular during the Civil War) and travel about the country in a Brady style wagon using the process in Civil War style clothes. This group even made it on the "Today Show" with John Chancellor in March of 1960.

## SCACC San Diego News :

For the second time this year, another of our Clubs has ceased to exist. The Movie-makers Club has disbanded. We will have to do more with the building than ever before. More on this later. The Club web site is up and running and it looks good. We probably need to add a list of upcoming Stereo Programs to the site (sdscc.us).

Our Club, unlike several other Clubs, is doing nicely. We continue to retain members and get new members thanks to the advertising efforts of several of our members, especially Janet Moyer.

## NSA :

For those attending the NSA Convention in Portland in July, the news is that the hotel is full and the secondary hotel is being used. The almost final and updated schedule of events and presenters is available online : [www.nsa2004.com](http://www.nsa2004.com)

## I heard ...

The Museum of Photographic Arts in Balboa Park has Robert Weingarten's two shows - "6:30 AM" a year of photos of Santa Monica beach out his front window at 6:30 AM every morning and - "Another America : RW's Testimonial to the Amish". Both these exhibits end August 15

[www.mopa.org](http://www.mopa.org)

July 18 is the monthly Bagnall's Camera Expo in Buena Park, 7530 Orangethorpe Ave. 9:30 am till 2:30 pm. (The June show was on the 20th.)

California Museum of Photography at Riverside has "Dog Days of Summer" a dog photo show by 20 artists including Diane Arbus and Elliott Erwitt. On CMP's web site, you can view Iraq photos from the Keystone and other collections since 1956 and India from the Keystone-Mast collection

[www.cmp.ucr.edu](http://www.cmp.ucr.edu)

The Getty is celebrating 20 years of collecting photography. The exhibit - "Photographers of Genius" has many of the photographers we now consider masters. This show runs thru July 25. Also at the Getty is a show "Spirit into Matter : the Photographs of Edmund Teske" thru Sept. 26, 2004. Edmund was a well known instructor and photographer in LA.

[www.getty.edu](http://www.getty.edu)

With a lot of the world using e-bay to sell things they know nothing about - the buyer must be on the alert. Assume nothing. Here are some recent e-bay examples selling a "Kodak Realist", another is selling a Realist but without batteries. One listing said that it has two lenses and takes aTWO rolls of film. Be careful.

The web site of a painter currently has a show of painting of common objects. As it turns out, one of the paintings is of a View-Master viewer - pretty cool.

[www.teresadiacoelho.com/gallery-objects-21.php](http://www.teresadiacoelho.com/gallery-objects-21.php)

The discussions on 3DTV have been quite lively. Many folks are trying to make 3D videos with twin digital cameras. Many problems have cropped up - synch, control of all functions on both cameras and how to merge the final two signals to one and how to project the finished product.

The photographic world is constantly evolving. Digital has gained considerable ground but the traditional film people are still around. For those of you who are interested in both, two current monthly publications will keep you informed "Shutterbug" and "PDN". The Italian magazine "Zoom" covers both but is interested in new images - image styles you haven't seen before. It also has many web site addresses for galleries and photographers. "View Camera" is for the large format shooters and "Camera Arts" covers all aspects of photography. The last one I will mention is English and called "Black and White Photography". This is a revival of the darkroom magazine and is very good - my favorite. As for stereo photography, only the NSA "Stereo World" and ISU's "Stereoscopy" and the coverage by the "PSA Journal" are published regularly.

(I'm winging it folks - the ed.)

Just because your getting older doesn't mean you have to quit the things you like to do. Hunter "Red" Rountree, who pleaded guilty to having robbed a First American Bank branch in August at the age of 91, was sentenced to 12 years in prison. Daniel Putzel, 87, was arrested and charged with running a house of prostitution. In Boston, Philip "Sonny" Baiona was arrested as one of the South Ends top cocaine dealers, he is 80.

**WARNING : The consumption of alcohol may create the illusion that you are tougher, smarter, faster and better looking than most people.**
